

# DDL SIG: Python self-study group

Dayton Microcomputer Association Meetup

Learning Python? So are we! Informal gathering to ask each other questions, show each other what we're working on, etc.

You may want to bring a lunch; only snacks are for sale at WBI. Swallowing your lunch whole and resting on a warm rock for days afterward, Python-style, is strictly optional.

This meetup is a joint project of the Dayton Dynamic Languages group (<http://d8ndl.org...>) and the AFRL Maker Hub ([www.afrlmakerhub.com](http://www.afrlmakerhub.com)).

Dayton, OH 45400 – USA

Friday, October 18 at 12:00 PM
