

August 2018: Place change; arcade games

NEW LOCATION

From now on, instead of the Chess Club, we'll be meeting upstairs at [Brixx Ice Company](#) in downtown Dayton. Yum!

Topic: Monty Python and the Holy Game

For many of us, 2-D arcade games were our introduction to computers. Let's get back to the good old days and look at how to write them! We'll focus on Python's arcade library, with a quick look at some options in other languages.

Upcoming Event: Monty Python and the Holy Game

The Saturday after our meeting (August 11), the Victoria Theater is screening [Monty Python and the Holy Grail](#). Let's go, show folks the language named after Monty Python and the Monty Python trivia game we've written in it, and enjoy the show!

June 2018: Place change; PyCon review

PLACE CHANGE! And PyCon Review

We've got a problem! The Chess Club won't be available on Wednesdays anymore. I haven't been able to find downtown alternative locations yet.

Since we're out of time and I don't want to lose people by moving far, let's meet *at spaghetti warehouse at 7*. We won't be able to project anything, but that should be OK for now. We'll stick a sign to the Chess Club door so people who miss this message won't have to go far.

Also, we'll discuss the glories of PyCon in Ohio.

July 2017: Perl 6

DDL began, many years ago, as the Dayton Perl Mongers. Let's get back to where we once belonged and find out what resulted from the long-awaited [Perl 6](#)!

July 2017: Perl 6

DDL began, many years ago, as the Dayton Perl Mongers. Let's get back to where we once belonged and find out what resulted from the long-awaited [Perl 6](#)!

May 2017: TBA/General Discussion

We've had to postpone our plan for exercism.io to June and are currently looking for a May topic. Please feel free to propose one to the mailing list!

Failing that, we'll devote the meeting to unplanned and unstructured discussion – which, with our group, can be very good indeed.
